PROFESSIONAL SUMMARY

Results-driven Senior Backend Engineer with 5+ years of experience architecting and scaling distributed cloud microservices a

TECHNICAL SKILLS

- Programming Languages: Python, SQL, Bash
- Frameworks & APIs: FastAPI, Flask, REST APIs, GraphQL
- Databases & Caching: PostgreSQL, Redis, SQLAlchemy
- Cloud & DevOps: Docker, Kubernetes, AWS, CI/CD, GitHub Actions, Linux
- Testing & Tools: Pytest, Git, Agile, Postman, Celery

WORK EXPERIENCE

Senior Backend Developer | RazorScale Technologies, Bengaluru | 2022 - Present

- Architected high-performance REST APIs and asynchronous task processing using FastAPI and Celery handling 2M+ daily r
- Optimized database query latency by 45% using PostgreSQL indexing and Redis distributed caching.
- Containerized microservices with Docker and deployed on AWS Kubernetes (EKS) via CI/CD pipelines.

Backend Software Engineer | Swiftdrive Labs, Hyderabad | 2019 - 2022

- Developed core cloud backend services using Python, FastAPI, and PostgreSQL.
- Implemented automated test suites with Pytest achieving 94% test coverage.
- Participated in Agile sprint planning and architected resilient cloud integrations.

EDUCATION

Bachelor of Technology in Computer Science and Engineering
Indian Institute of Technology (IIT) | 2015 - 2019
